

🎉 MulmoCast v1.0.5 Released!

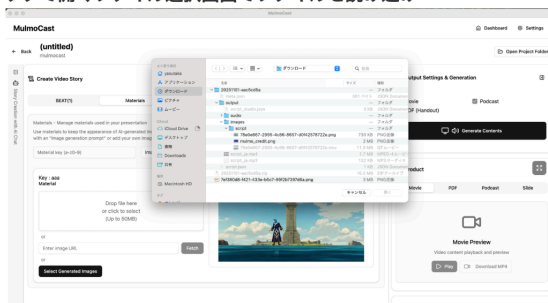

🎉 MulmoCast v1.0.5 リリース！

November 15, 2025

2025年11月15日

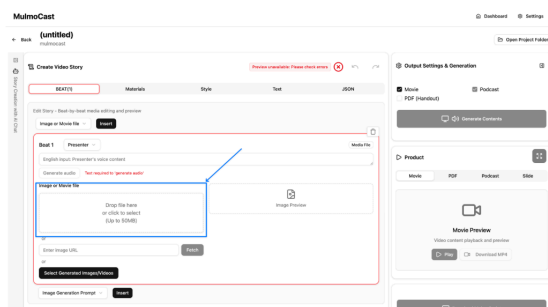

We have released MarmoCast version 1.0.5! There are five major updates in this version.

1. Click-to-Open File Selection Dialog for Loading Files
1. クリックで開くファイル選択画面でファイルを読み込み

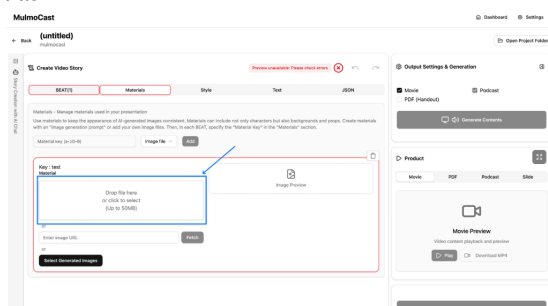

First, a "file selection screen" that opens with a click can now be used for loading files. The traditional drag-and-drop method is still available.

- BEAT tab > Image or Movie file
- BEAT タブ > 画像または動画ファイル

You can use this when importing image or video files to the BEAT tab.

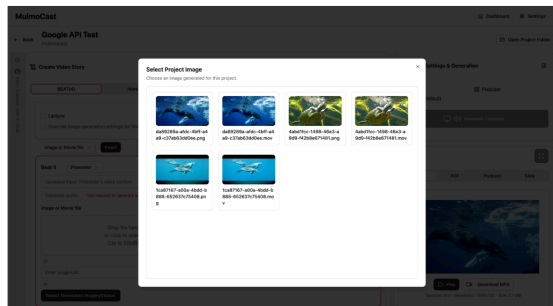

- Materials > image file
- 素材 > 画像ファイル

It can also be used when loading image files in the material tab.

2. Reuse Generated Images and Videos Across BEATS

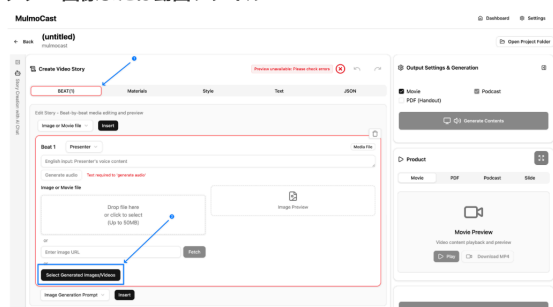

2. プロジェクト内の生成済み画像・動画を他のBEATで再利用可能

Second point. Images and videos generated within a project can now be reused in other beats. You can select materials that have already been generated within the project from the file selection screen.

BEAT tab > Image or Movie file

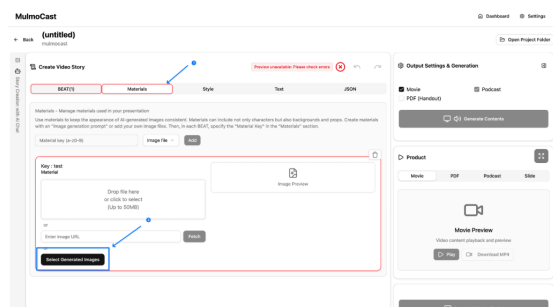

BEAT タブ > 画像または動画ファイル

This can also be used when loading image or video files in the BEAT tab.

Materials > image file

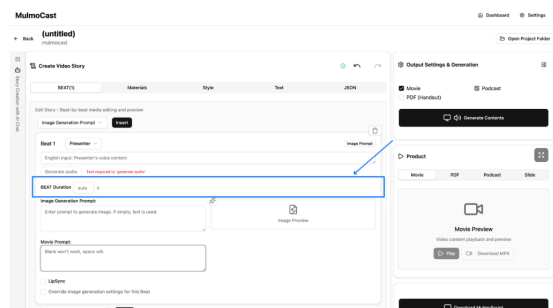

素材 > 画像ファイル

You can also use it when loading image files in the materials tab.

3. Specify BEAT Duration in Image Generation Prompt (Advanced Mode)

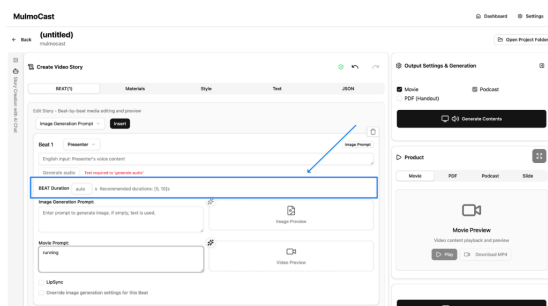

3. 画像生成プロンプトでBEAT時間を指定可能（上級モード）

Third, in the advanced mode "image generation prompt," you can now specify the time for each beat.

3. Specify BEAT Duration in Image Generation Prompt (Advanced Mode)

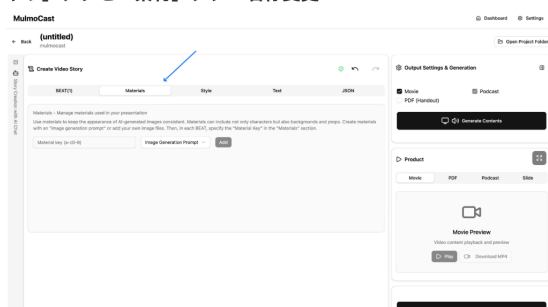

3. 画像生成プロンプトでBEAT時間を指定可能（上級モード）

The time that can be set differs depending on whether video generation is enabled.

4. Character Tab Renamed to Materials Tab

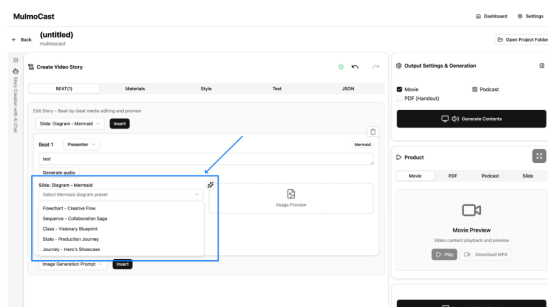

4. 「キャラ」タブを「素材」タブへ名称変更

Fourth: The name of the "Character" tab has been changed to the "Materials" tab.

5. Preset Templates Added for Mermaid Diagrams

5. Mermaid図表用のプリセットテンプレートを追加

Fifth, added preset templates to Mermaid.

Enjoy MarmoCast version 1.0.5!

Thank You!
ありがとうございました！
